RE: RM-8626

DOCKET FILE COPY ORIGINAL

To: The Commission

I am **opposed** to the petition by Fred Maia, W5YI, that would prohibit one-way information bulletins and code practice transmissions in the amateur bands below 30 MHz.

For decades, the Hiram Percy Maxim Memorial Station, W1AW, has been supplying free services to the Amateur Radio community. I have used these services myself, and want to be able to continue to do so. The FCC itself relies on these services to disseminate information about communications emergencies. Thousands of amateurs regularly sharpen their skills by copying ARRL bulletins and code practice sent by W1AW.

The public interest would not be served by further consideration of this petition. I request that the petition be denied.

Sincerely,

Michael J. Arguilla (N8ZSL)

RE: Rule RM 8626 Proposed...

DOCKET FILE COPY ORIGINAL

Dear Sir;

This proposed new rule is the most recent attempt at ruining what is a great hobby for shut-ins, and people in wheel chairs, including our veterans on MARS Net works...

WE pay for our liceses, we teach newcomers and we police our privileges, as well as give the tests and pay for the postage and volunteer our time, and keep our signal free from interffering with with others rights to listen and enjoy television. We provide emergency communications in time of need at no cost or obligation.

Blocking all one way transmissions will eliminate the time signals from AARL, the code practice from AARL, to all calls for help if not answered, and nobody could put out a CQ call.

This is an attempt at proving the stupidity of the originator or author of such an ignorant ruling, plus just how would you police such a thing as all calls of any kind?

Sincerely,

Arthur E. Hoffschneider

Re: RM-8626

DOCKET FILE COPY ORIGINAL

To: The Commission

I am opposed to the petition by Fred Maia, W5YI, that would prohibit on-way information bulletins and code practice in the amateur bands below 30Mhz.

I make use of these bulletins for the latest information about amateur matters. I learned the morse code by listening to code practice transmissions. I also listen to the NASA broadcast on 40 meters by WA3NAN.

We should have less regulation, not more. I think that the few amateurs that are inconvenienced by these bulletins could better accommodate them for the benefit of the people who depend on them and enjoy them. Most of us are aware of the times and the frequencies that these transmissions occur. I would be very willing to change frequency if a bulletin transmission were about to occur on the frequency that I was using.

I respectfully request that this petition be denied.

Sincerely,

Paul Ramsden

RE: RM-8626

PLEASE CONSIDER MY OBJECTION TO THE RULE CHANGE
PERTAINING TO ONE WAY TRANSMISSIONS FROM AMATEUR
RADIO STATIONS. THESE TRANSMISSIONS ARE ESSENTIAL TO THE
AMATEUR RADIO COMMUNITY THROUGHOUT THE WORLD, AND
SHOULD NOT BE DISCONTINUED.

THANK YOU
